Upcoming Events

This month we will continue our unit on recycling. In the next few weeks, look for your child to turn into the "Litter Police". If you are not on your best recycling behavior, they will let you know all about it. 😊

Why is it important to teach our children about recycling?

Recycling is a great way to help children develop an environmental awareness and understanding.

The lessons that they learn about taking care of the earth at this young age will impact their attitude towards environmental issues later on.

Week of the Young Child

March 31st - Music Monday/Mismatch Day
(Music and dance in mismatched clothes)

April 1st - Tasty Tuesday/ Team Day
(Enjoy a treat in favorite team gear)

April 2nd - Pajama Day
(Pick out your favorite pair)

April 3rd - Silly Sock Day
(Cannot wait to see your chosen pair)

Reminder

Just a reminder, as our weather is beginning to change from Winter to Spring, please check your child's cubby for the appropriate extra clothes.

Hopefully I do not jinx us, but feel free to take home all their snow gear.

Extra News!

Original Artwork
Orders due April 7th

Spring Pictures
April 9th & 10th

Music and Muffins
April 25th at 9:30
Please join us for a musical performance and yummy muffins on the playground!

Homework

During our unit on recycling, we will be learning about the 3 R's; Reuse, Reduce and Recycle. At home, hunt for items that contain the recycling symbol. (We like to call the symbol "chasing arrows"). Your child may bring their items to school to share and add to our Grocery Store.

Recycling for our Earth to keep it looking shiny and new, right here in 3K-2!!!!

Ms. Kathy & Ms. Emily
