Younger Two's Happenings

February brought us lots of fun both inside and outside!
We had fun learning more about shapes and colors. Our favorite activity was jumping on different chalk shapes.

The month of March we will be looking at important people in our community. We call these people community helpers.

There are so many people that help in every community; some of them are firefighters, construction workers, restaurant owners, mail carriers, teachers, doctors, police officers, veterinarians. We are going to be reading many books, dressing up and making some super-fun crafts to help us learn about how these special people help us and our community.

Reminders

With the cold weather still lingering, please be sure each day that your child is prepared with warm clothing. (hats, mittens, winter jacket, snow pants, and boots).

THANK YOU for labeling your child's items!!

This Month's Theme

Community Helpers

Family Connection Activity

With the weather not knowing if it wants to be warm or cold, there may be quite a few days that you are stuck inside with your little one. A fun and inexpensive way to spend the time is by making playdough together!

Attached is a very simple no bake recipe to have hours of entertainment with your child. Remember any activity you do can be as academic and rewarding as you want it to be. Use very descriptive words to help your child's vocabulary grow!
