

The Bay's Wrap News

Lakeland's Little Learners October 2022

This Month in Our Room

3rd Rock from the Sun

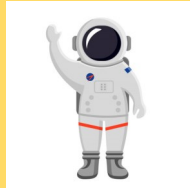

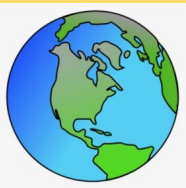

Students may research Earth and other planets. Using what we learned, students will get to model a planet of their choice.

Space Suits

How does a space suit work? How have space suits changed over the years? How heavy is a space suit? These are all questions the students have and we will work on finding out the answers.... And hopefully much more!

Rockets

Everyone will have the chance to create their own rocket using craft materials and cardboard tubes. Once built, students can launch them across the cafeteria using balloon propulsion.

Family Activity

Try using some fall color sidewalk chalk and create a fall scene on your sidewalk or driveway. Send a picture of the final product so we can share with the rest of the class.

Great Family Fun

Colorful Leaves Are Falling Down

Help liven up the daunting task of raking leaves and play in the huge pile with your kids. This fun pastime will not only help keep their interest in this Fall chore, it may also bring back some great childhood memories.

Upcoming Events

- ♦ October 19 - No 4K - Family Outreach
- ♦ October 27 - NO SCHOOL (Parent / Teacher Conferences)
- ♦ October 28 - NO SCHOOL (Fall Break)
- ♦ November 15 - Picture Re-take Day

Last Month Activities

Last month everyone got a chance to learn the new routine, play some new games, and get involved in creative art projects. I cannot wait to see what the future holds for our program.

Would you like to meet up with Mr. Mike for a parent-teacher conference? Phone or virtual meeting times are now available. Talk with Mr. Mike to schedule a meeting time.
