During the month of September, we have been learning through play daily. We have provided activities to develop listening skills, self-confidence, curiosity and persistence. Throughout our year your child will be encouraged to think flexibly and creatively as they seek solutions to problems. We believe a positive sense of self is the most powerful tool for learning.

During our study of trees, we discovered what foods they produce, what animals call them home and why they are so important to us. Our activities included, learning the many different things in our lives that come from a tree and what a tree needs to grow big and strong.

This brings me to your homework. Please have your child bring in a picture of themselves when they were a baby. We will be discussing how much we have changed and what we need to grow to stay strong and healthy. Also, if you haven't already sent in a family picture and would like to, please do. The children have loved sharing their families with their friends and it is a little bit of home at school.
