April 2026 Newsletter

Classroom Happenings

- In March, we learned about different kinds of pets, the sounds they make and we played a pet matching game.
- This month, we will be celebrating the arrival of Spring. Activities that we will do include making dot paper plate flowers, learning a song called "Little Ducks" and listening to the book *I See Spring*.

Theme for the Month Easter and Spring

Family Connection Activity

- Spring is here! See if you and your child can find some of the signs of the season by looking for a robin and listening to its morning song, finding the first tulips popping up from the ground and the first buds on the tree.
- Have you noticed the return of any insects, animals or birds that you have not seen for awhile?
