

Lakeland's Little Learners

3K-1 with Ms. Allie

January 2026

Themes

We had a wonderful time last month creating ornaments, singing holiday songs, and playing holiday related games and activities. We so enjoyed performing for you at the Christmas Concert.

The children also had so much fun at the Christmas party. Thank you to everyone who sent donations and helped at our party.

In January, we will be exploring everything about winter. We will be painting snow, creating snowmen, using the parachute with "snowballs" and doing science experiments about freezing and melting. We will investigate how animals use migration and hibernation to adapt to winter. And, we'll also learn about the animals in the polar regions.

Fundraiser

Enjoy delicious baked goodies while supporting LLL. The Elegant Farmer fundraiser will begin on January 16. Orders are due January 30. Order pick up is tentatively February 11. Thank you for your support.

Winter Weather

We go outside everyday even in Wisconsin's winter weather. Please send your child with all their winter gear. This includes a coat, snowpants, hat, mittens, and boots. Label all their gear (all those black snowpants look the same) and send it to school in a recyclable bag. This makes it easier to keep all their belongings together.

Book Bags

Thank you for taking such good care of the library books and encouraging a love of reading. New books will be coming home soon!

Family Connection

In the winter, there are so many beautiful birds to observe. A fun activity would be to make a bird feeder. Collect a pinecone, spread peanut butter all over it, and then roll it in birdseed. Add a piece of yarn or ribbon and then, hang it in a tree or bush and see who comes by. As you observe, count how many birds come to eat.

Questions or concerns, please call 262-723-8391 or email me at aknapp@lakelandslittlelearners.com
