LAKELAND'S LITTLE LEARNERS

February 2026

## Last month...

During the month of January, our program explored an exciting space-themed unit that quickly captured the children's interest. They enjoyed learning about constellations, the solar system, and the planets through a variety of hands-on activities, including sensory play, imaginative NASA role-play, and creative art projects. The children were highly engaged throughout the unit, and Miss Terri continued the exploration with additional activities during the second half of the month. Overall, the space unit was a great success and one the children would have happily continued even longer.

## Important Dates

- ♦ 2/5 and 2/26 - Maker Space
- ♦ 2/11 - Activity Night (4pm-6pm)
- ♦ 2/19 & 2/20 - Mid-Winter Break
- ♦ 2/27 - Original Artworks Due

## This month...

This month, our program will be diving into an ocean-themed unit inspired by the children's curiosity about the sea and its many wonders. We will explore topics such as whales, sharks, coral reefs, and sunken ships while learning more about the ocean and the life within it. Through shared exploration and discovery, the children will gain a deeper appreciation for this vast and fascinating part of our world.

## Family Activity

Never fear, Wisconsin weather will more than likely bring lots of snow in February. Don't forget sledding can be a great family activity.

LEAD SCHOOL AGE TEACHER: Mr. Mike

EMAIL: [mrmike@lakelandslittlelearners.com](mailto:mrmike@lakelandslittlelearners.com)

Would you like to meet up with Mr. Mike for a parent-teacher conference? Conference times are now available. Talk with Mr. Mike to schedule a meeting time.
