

Lakeland's Little Learners

2.75 Newsletter

March 2024

Last Month:

Our class greatly enjoyed learning about hearts, colors, and Valentine's Day! I would like to thank everyone who sent us delicious treats for our Valentine's Day party. It made the day so special for the children. March is here and spring will soon be knocking at the door.

This Month:

In the beginning of March, we will be learning about St. Patrick's Day, shamrocks and rainbows. We will explore different art mediums as we paint with green. Painting and gluing shamrocks will give us practice with our fine motor skills. We will have fun stories and songs about leprechauns and rainbows! Toward the end of the month we will begin to learn about the signs of spring!

Reminders:

Label your child's belongings with his or her first and last name and also be sure to check your ProCare for daily information and pictures please! Thank You!

Family Connection:

Go on a walk with your child and find early signs of spring! Is the grass starting to poke through the snow? Do you see any flowers beginning to bloom? Have the birds started to migrate back to Wisconsin? Discuss with your child all the signs of spring that you see and hear.

Mark your Calendars:

April 1st - Original Works order forms and sample magnets sent home

April 9th - Original Works order forms due

If you have any questions or concerns, please ask. I am always here to help.

Thank you,

Ms. Shandana
