Themes

Welcome to the beautiful month of May!! We are looking forward to fewer April showers and many more May flowers.

This month we will begin our study of balls. This is truly one of my favorite themes. We will learn all about making predictions and conducting experiments to see if our thoughts are correct or incorrect. We will graph balls by size, color, and texture, as well as, discover what is on the inside of all the balls we play with.

We will expand our vocabulary with words, such as, hollow, solid and sphere.

HOMEWORK

Please help your child choose a favorite ball from home to share with their friends at school.

Assessments & Conferences

I will be assessing each child this month. Look for your child's "snapshot" to be coming home in the next few weeks. If after reading it you have any questions or concerns, please feel free to sign-up for a conference. Look for the sheet on the outside of our classroom door.

Sunscreen

Beginning in May, we will be applying sunscreen when we go outside. If you would like your child to use our sunscreen, please sign the sheet located on the outside of our door. The cost will be \$8.00 for the full summer. If you would prefer your child receive their own sunscreen, please fill out a pink medicine form and bring it to the classroom along with your chosen sunscreen.

Upcoming Events

Muffins and Music

Thursday, May 11th at 9:30 on our playground
