LAKELAND'S LITTLE LEARNERS

January 2026

## This month...

In January, our program will be launching into an exciting outer space unit that has been a favorite in the past. The children will explore topics such as space suits, comets and asteroids, satellites, spaceships, stars and constellations, and all the planets in our solar system. These space-themed ideas will be incorporated into a variety of games, crafts, and both independent and group activities. We are looking forward to a fun and engaging month of learning and discovery.

## Family Activity

Did you know that Yerkes Observatory is right in our own backyard and open to the public for tours? As we begin our space unit this month, visiting the observatory could be a fun and educational family activity. There is so much to learn and observe while exploring the wonders of outer space together.

LEAD SCHOOL AGE TEACHER: Mr. Mike

EMAIL: [mrmike@lakelandslittlelearners.com](mailto:mrmike@lakelandslittlelearners.com)

## Important Dates

- ♦ Jan 5: First Day Back From Break
- ♦ Jan 8 & 22: Maker Space
- ♦ Jan 23: Teacher In-Service No School
- ♦ Jan 30: "Parents Night Out"

## Last month...

During December, our program explored the world of cooking through a variety of hands-on activities. Some recipes became tasty snacks we enjoyed right away, others were sent home to share with families, and even our "cooking failures" turned into valuable learning experiences for children of all ages. We also worked together to make Christmas present pizzas for the school staff, who were surprised and thankful for the children's hard work and family donations. Overall, it was a fun, engaging, and memorable month of cooking and teamwork.

Would you like to meet up with Mr. Mike for a parent-teacher conference? Conference times are now available. Talk with Mr. Mike to schedule a meeting time.
