Ocean Unit Highlights

3K-2 loved the ocean theme this month!

Their top favorite activity was the beach, where they could touch ocean animals and then have a beach picnic. They also loved the fish bowl sorting by color, size, and shape.

August Themes

This month, we will be learning all about Farms! We will be looking at farm animals, farming harvest, farm food, and all farm life. 

We can't wait to have a farm-tastic month! 

Family Connection

With our farm theme this month, a fun activity to enjoy with your child would be visiting a petting zoo!   Petting zoos are a great way to see and interact with many different farm animals. Talk with your child about the animals they see, the sounds they make, and what they provide for us, such as milk, eggs, wool, and more. Enjoy making farm fun memories together!

Water Days!

We will have more water days in August; they will just be switching to THURSDAYS instead! Weather permitting, our water days in August will be the 6th, 13th, 20th, and 27th. Everything will run the same at our 10:00 outside time. Your child may come dressed in their swimsuit; otherwise, we will help them change into and out of their swimsuit. We do ask that you bring a towel and shoes that can get wet.

End of Summer Party

On Thursday, August 27th, we will be celebrating the end of summer! We will still have our regular Water Day, along with our other outdoor activities. Before heading outside, we will enjoy some special snacks, and we will end our Water Day with a popsicle treat!  If you would like to donate a snack or other item, please keep an eye out for the sign-up sheet on the classroom board.
