

Welcome to 4K

Dear 4K student,

Welcome to our 4K class. We are going to have a wonderful year getting to know each other. We will read stories, sing songs, create projects, and learn many new things. There will be lots of new friends who will be waiting to play and learn with you, too!

Reading, math, writing, blocks, housekeeping, and science are just a few of the learning centers you will be able to explore throughout the school year. I can't wait to see how you bring these areas to life with your imagination! Our classroom is ready and all we are missing is you. I am so excited for you to arrive so we can set sail on this adventure of learning and exploring!

I look forward to meeting you,
Ms. Jacintta
