November 2026

Last month: We talked about apples, fire safety, fall and Halloween! We had a great time pretending to call 911 if there is a fire, making fire truck noises, tasting apples, and creating lots of fun Halloween crafts. We can't forget our Halloween parade and costume party! Everyone did a great job following their teachers as we visited the surrounding businesses to trick or treat!

This month: In November, we will talk about DINOSAURS! We love dinosaurs at this age and we will be talking about them all month long! We will also have a small unit on celebrating Thanksgiving by coloring and gluing and learning songs about turkeys. Don't be surprised if you hear "Gobble, gobble and roars!!"

Parent connections: Talking and reading at home with your child is so important! Ask your child questions about the story, give him/her time to answer and then you can expand on what they say. It is never too early to introduce new vocabulary. When reading with your child, talk about the story and the pictures. This month bring in one of your family's favorite books to share with the class.

Reminders: It is getting so chilly in the mornings! We go outside every morning, and it is important that your child has the proper coat, hat and mittens. Mittens are the easiest for us to put on the children, we really appreciate you sending them! We practice self help skills with the children, especially those working on potty training. It is important they wear clothes that are easy for them to pull up and pull down; children struggle with jeans that are too tight or have a dress that is too fluffy. Thank you!
