### Classroom Happenings

Our classroom continues to grow! In January, we welcomed Rory to our classroom. We also listened to books about different arctic animals, made a cotton ball polar bear and practiced waddling like penguins.

Highlights of February will include mixing the color red with other colors to see what new colors we can create and making a collage using different sized hearts. Books that we will be listening to this month include *Little Blue Truck's Valentine*, *Big Red Farm* and *Mouse Shapes*. We will be celebrating Valentine's Day with a party on Wednesday, February 11th.

### Theme for the Month

- Heart shapes and the color red

### Family Connection Activity

Young children learn by observing their environment and colors are everywhere! Play this simple game with your child to help reinforce the concept of the color red; point to a red object, name what color it is and then ask your child if they can find more red objects. Collect all the red objects your child found for him/her to see.

### Reminders

With the winter weather finally here, please make sure your child is prepared daily with **LABELED** winter clothing (hats, **mitten**s, winter jacket, snow pants and boots). **THANK YOU for the Eco-friendly bags to store all their winter gear!**

### Important Dates

February 11 - Pick up for Elegant Farmer Fundraiser

February 11 - Valentine's Day Party  
9-10:30am
