

Lakeland's Little Learners October Newsletter 2.75

Last month: Happy Fall! Can you believe summer is officially over? Last month we had so much fun talking about dinosaurs! Who doesn't love dinosaurs? We sang so many songs, read many fun books and stomped until we could not stomp anymore. The children loved walking dinosaurs through paint and stamping their feet on paper, digging up fossils at the sensory table and making our own fossils with Play-doh!

This month: We will be learning about apples, fire safety and Halloween! We will talk about the variety of colors apples come in, how they taste and where they come from. Next, we will be practicing our fire drills and working on covering our ears, looking for our teacher and lining up quickly and quietly.

Family Connection: Spend time at home talking about fire safety. Get together as a family and choose a safe place to meet if there is a fire at home, like a neighbor's house or a big tree down the street. Check your smoke alarms together, show your child what they sound like and explain they are there to keep us safe.

Reminders: Hopefully, cooler weather is on its way! Please have a sweater or a light jacket at drop off for your child. If the weather is nice, we try to head outside around 8am and some mornings it is a bit chilly out there! Please remember to label your child's belongings, we have a lot of duplicate clothing items, and they get mixed up very quickly.

Important Dates:

October 31st – Halloween Party at 9:00am students are encouraged to dress up in their Halloween costume. At 9:15am we will go on a walking parade that proceeds through the city office next door, across to the law office, the salon and then back to our classroom where we will enjoy a snack and play Halloween themed games and activities. If you would like to donate an item for our party, there will be a sign-up on our classroom door.

Any questions, please don't hesitate to ask!

Thank you!
