June Highlights

Summer has gotten off to a great start! It has been wonderful getting to know and spend time with all our new and returning students. A study of oceans and the sea creatures that live within them was our focus for the month of June. During our study, we created jellyfish, discussed which sea creatures breathe underwater versus above the water, and categorized sea shells. We wrapped up the month by graphing which sea creature we like the best. Be sure and ask your child which one they voted for!

Looking Ahead

As we move into the month of July, we will spend the first week discussing the Fourth of July and creating art inspired by this holiday. Then we will begin studying "Farms". In our farm dramatic play area, children will get to "work on the farm" by collecting and sorting eggs in our hen house, selling produce at our farm stand, and enjoying the ice cream in our ice cream shop.

Water Play Days

Starting Wednesday, July 15th, weather permitting, we will have sprinkler fun. Please send a swimsuit, towel and shoes that can get wet if your child would like to participate in the water fun. For those children who do not want to play in the water, we will have outdoor bowling, golf, basketball and many other fun activities.

Family Connection

This Fourth of July, we hope you enjoy some time outdoors with your family. While enjoying the holiday, see if you can complete this festive scavenger hunt together. You could even team up and make it a race to see who can find the items the fastest. Have fun and Happy 4th of July!
