October 2026 Newsletter*

Classroom News

In September, we welcomed Vaeda, Cade, Teddy, Quinlynn and Luke to the Toddler Room! We also focused on what makes each of us unique and we increased our body awareness skills by learning songs that helped us identify our body parts.

In October, we will be observing the changing season by looking for nature's signs that Fall has arrived. Activities that we will be doing include going on a leaf hunt to see how many different colored leaves we can find, reading the book *The Colors of Fall* and painting with pumpkin spice scented paint.

Important Dates to Remember

Paperpie Book Fair - October 12-16
Halloween Party and Parade - Wednesday,
October 28th 9am

This Month's Theme

❖ Celebrating Fall

Family Connection Activity

This month we will be talking about the Fall Season. While enjoying the outdoors with your child, talk about the changing colors of the leaves. Pick up a leaf and let your child hold the leaf to see what it feels like. Save the leaf that you chose and bring to class so that we can add it to our classroom leaf collage. In addition to the changing leaves, look to the sky for the migrating birds and take time to observe the busy squirrels as they are preparing to store food for the winter.
