November 2022 News

October Recap

In October, we traveled around the world through maps. As we discussed the incredible places on our planet the students were motivated to experiment with making topography. To encourage other students to learn with us, the maps were displayed in the hallway. The *Library on the Go* came for a visit and we were able to make a craft and take home some fun books.

November News

This beautiful month, we will dive into the waters of our world. It is incredible that more than eighty percent of our oceans have not been mapped, explored, or even seen. We hope to make some new discoveries of our own. We will conduct water density experiments. As we learn about the effects of pollution we will come up with a solution and figure out how an oil spill can be cleaned up. What lives at the bottom of the Amazon River? Why is Lake Erie full of shipwrecks? What mysterious creatures are living in the sea of Cortes? We are excited to try and find out.

Upcoming Events

Scholastic Book Fair is coming to LLL

November 28/-12/2/22

We offer conferences to all of our families. If you would like one, please let me know and we will schedule one together.

Family Connection

Pick a cold and rainy day and visit the incredible underwater world found at the Reiman Aquarium in Milwaukee. There are strange and unique fish from all around the world. Make discoveries together.

Reiman Aquarium
500 N Harbor Dr, Milwaukee, WI 53202

Reminders

Our parking lot is very busy. Lots of little ones coming and going. Please remember that our parking lot has an ENTRANCE ONLY and EXIT ONLY traffic direction. Please help keep everyone safe especially as the days are getting darker.

Please let a teacher know when you are leaving with your child at pick up. Please remind your child to check out with the teacher in the room.

Lakeland's Little Learners will be closed Thursday November 24. If you need more hours on November 23rd or 25th contact the office for availability.
